■ HSE POLICY

Health, Safety and Environment (HSE) is a fundamental component of CLEO Agencies Limited business principles and corporate culture. The company believes that effective management of HSE affairs not only protects employees, visitors, clients and the environment but also contributes to the successful deployment of our services, as we work with our clients to understand and develop controls for project safety risks.

We have a long-standing commitment to the highest standards for health and safety as well as for the protection of the environment in our host communities in which we live and work. We operate in an environmentally responsible manner and champion environmental initiatives for sustainable operations.

Manifold Maintenance and Modification at Seven Manifolds (OML 98)

We provided critical maintenance and modification services for seven key manifolds, enhancing their operational performance and reliability. Our team handled piping system modifications, valve replacements, and flow control enhancements, ensuring minimal downtime and maintaining the integrity of the flow systems.

The project required intricate coordination with existing infrastructure and strict adherence to operational safety standards. This reinforces our capability in executing manifold-related services and complex piping modifications within high-risk environments.
